Artist Statement

Many things inspire and motivate me. Music, environment and architecture affect my work.

Throughout my years I've come to realize the importance of process and that there is a purpose in every step. Utilizing raw and refined elements to create a sense of depth and texture that recognizes this process. Reflection of past and present and recognition of how our separate lives are strangely connected is present in my work. Being a person of few words, my art has spoken for me. And with this work there is a lot to be experienced in silence.

"Painting gives me a connection to this place we call home and gives me reason to get up in the morning".
